Experience South Africa's Shooting Ranges

South Africa, a country that combines an entire world. You will be fascinated by its variety of landscapes, the pleasant climate, unique fauna and flora, countless dream beaches, gigantic mountain chains, panorama views, friendly people and the modern City of Cape Town that offers European comfort.

During your Tour with us you will be visiting 7 different shooting Ranges, shooting a variety of Handguns such as Revolvers and Pistols as well as Rifles and Semi-Automatic Weapons. Sport shooting in South Africa is fairly accessible and can be thoroughly enjoyed thanks to low ammunition prices. You don't have to hold back emptying your magazine.

Please note that this Tour is for target shooting only; you will NOT be allowed to shoot any animals.

There are different calibres from well-known brands like Beretta, CZ, Glock, Winchester and Heckler & Koch available: .22LR, 7.65, 9mmP, 12Gauge Shotgun, 223rem, .40S&W, .45magnum, 38special, .357magnum and 308cal.

You can choose from a selection of Pin Shooting, Steel Challenges and Combat Shooting. To keep things exciting, you can form small teams and we can set up competitions for your group, or you can just shoot at targets for fun!

For novice shooters, and even those who have never held a gun before, we will gladly assist you in handling a firearm safely. Once you have the basics sorted you can submerge yourself in the adrenalin-filled world of shooting. All you need is an adventurous spirit and the desire to shoot.

Prepare for the diverse facets of the South African natural setting. Come with us on a 14-day journey to the Cape of Good Hope – it will be a journey you'll never forget.
